**Kennel Owners Can Have It All**

Pet Doors USA, Inc. Introduces the BiteGuard KennelPlex Pet Door.

The best pet door is now available in a kennel version. We have had requests for years for a kennel door that is: Quiet, Safe, Durable, Chew Resistant, and Weather Sealing.

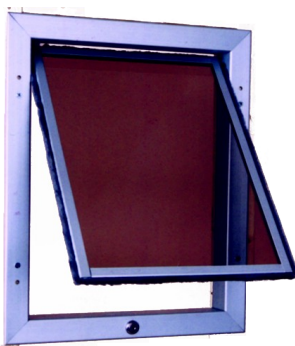

Kennel owners complain about:

- Poor weather sealing doors that cost them money.
- Loud closing doors that scare the small dogs and deafen the staff.
- Doors that get chewed up and have to be replaced frequently.
- Doors that occasionally injure some of the dogs when in use.

Every bit of our 22 years of experience went into answering those problems. These doors are professionally engineered and manufactured from quality materials to be the very best. BiteGuard KennelPlex Doors are:

*Whisper Quiet - Self-Closing - Weather Sealing, - Chew Resistant - Safe and Durable.*

Kennel owners no longer have to choose between durability, weather sealing, and quiet. They can have it all with the BiteGuard KennelPlex pet door!

***What goes into a BiteGuard KennelPlex?*** BiteGuard KennelPlex pet doors are made from thick aluminum that will not rust, crack, bend or warp. The satin finish is a smooth anodized finish. The white and brown is baked on. The panels are a high impact acrylic, the same type of material as used in aircraft windshields. The wall units come with stainless steel screws that will not rust and stain the outside of the building.

This door is larger than most standard large size pet doors and measures 13 ¼ inches wide by 16 inches high for the pet opening. This will accommodate dogs up to 125lbs and will not be hard for a small pet to use.

These doors are made to give you years of service and we have the best warranty in the industry.

90 Day Unconditional Return Policy and a 5 Year Commercial Warranty.

BiteGuard KennelPlex Pet Doors are available to purchase through authorized dealers. Visit [www.plexidors.net](http://www.plexidors.net). Or, contact customer service at 800-749-9609 or [support@plexidors.net](mailto:support@plexidors.net) to find the closest authorized dealer or installer near you.
