FOR IMMEDIATE RELEASE

PET OWNERS HAVE MORE CHOICES!

Pet Doors USA, Inc. Introduces Bronze Frames for Plexidor™ Pet Doors.

The Best Pet Door is now available in Bronze, White, or Satin!

Want more choices to match the color of your home? Pet Doors USA, Inc. offers more color choices for Plexidor™ frames. Pet owners can choose from traditional brushed aluminum or NEW baked-on white or bronze finish. These frames are baked on finish like your stove. It looks good for years. This finish is 10 times tougher than paint for durability that cannot be beat!

Why a Plexidor™? Plexidor™ Pet Doors are professionally engineered and manufactured from quality materials to be the very best: quiet, energy-efficient, completely secure, long-lasting, and most importantly, safe and easy for pet use. Once you have a Plexidor™, say good-bye to messy litter trays, scratched doors, wasted energy, noisy flaps, and ruined carpets and drapes.

What goes into a Plexidor™? Plexidor™ are made from thick aluminum that will not rust, crack, bend or warp. The satin finish is a smooth anodized finish. The white and brown is baked on. The panels are a high impact acrylic, the same type of material as used in aircraft windshields. The wall units come with stainless steel screws that will not rust and stain the outside of your house. The Plexidor™ are made to give you years of service. This door saves you energy and money. Buy one door, not 5 replacement flaps.

As always, the Plexidor™ comes with the industry's best warranty – 90 Day Unconditional Return Policy and 5 Year Warranty. We think you will agree that Plexidor™ Pet Doors are the best looking, best engineered, and best value you have ever seen in a pet door.

Plexidor™ Pet Doors in bronze are available to purchase through authorized dealers. Visit www.plexidors.net. Or, contact customer service at 800-749-9609 or support@plexidors.net to find the closest authorized dealer or installer near you.
